When we serve—and lead—with these principles in mind, we make service more attractive for all members. At times our service bodies can be disorganized and stressful. Members who take positions or just attend a committee meeting to see what it is about can leave frustrated and dispirited. We have a collective responsibility to infuse our service bodies with an atmosphere of recovery where people feel welcome and encouraged to grow. In such an atmosphere, our trusted servants are more likely to feel effective and productive, and our service bodies grow stronger. When we put aside our personality differences and work together to develop the best qualities in our members who are willing to serve, our areas, regions, and subcommittees become fertile ground for cultivation.

- Principles and Leadership in NA Service

We are asking that all attendees consider making a 7th tradition donation to the Florida Region. It's definitely not a requirement but, as many of us already know, the pandemic has been financially devastating to the Florida Region (and NA World Services). We're hoping that, through our support, we can foster a 7th tradition infusion that will allow our services to addicts to continue to run smoothly with any excess sent up to NAWS to further carry the message. You can donate at <https://naflorida.org/donate> and thank you for your contribution!

Welcome to the Florida Service Symposium

This pamphlet was written to answer some of your questions concerning the program of the Florida Service Symposium. Our message is very simple: We have found a way to live without using drugs, and we are happy to share it with anyone for whom drugs are a problem. We have found that service is part of that way.
